# ECHAlliance Ecosystems: basic principles

- Defined Geographic zone
- Permanent Multi-stakeholders community with regular meetings
- Shared strategy & action plan
- Lead with the need
- Identify solutions
- Focus on deployment and implementation
- Member of the International network

**European Connected Health Alliance**

*Bringing needs and solutions together for the Future of Health*

# So What ?

---

## European Connected Health Alliance

*Bringing needs and solutions together for the Future of Health*

# The Digital Health Society

ECHAlliance is International Strategic Partner of the Ministry of Social Affairs of Estonia.

**The DHS Declaration**, a manifesto expressing the current main challenges for the Digital Health deployment and, as it should be a collective movement, drawing ways and initiatives from each category of stakeholders to achieve it.

## The DHS Task Forces

1. CONVERGENCE ON INTEROPERABILITY STANDARDS
2. CITIZEN-CONTROLLED DATA GOVERNANCE & DATA DONORS
3. LEGAL FRAMEWORK FOR FREE FLOW OF DATA
4. DIGITAL TRANSFORMATION & CHANGE MANAGEMENT

## High-level eHealth

### Mantras

- Building citizen-driven demand in eHealth
- eHealth supporting value driven & sustainable services
- eHealth as a driver of innovation and economic development

### Tracks

- Citizens, professionals & society
- Digital infrastructure, data & technologies
- The enabling environment

## Conference

50+ high-level speakers

700+ attendees

From Europe, USA, Canada, China

<b>Vision 2020</b>	<p><i><b>Oulu is a city where citizens actively manage their wellbeing and use health technologies effectively.</b></i></p> <p><i><b>OuluHealth is internationally recognized ecosystem that creates solutions for future needs in healthcare.</b></i></p>
<b>Strategic focus areas and key targets</b>	<ul style="list-style-type: none"><li>• Promotion of Individualized Health and Wellbeing</li><li>• Efficient and Effective Health and Social Services</li><li>• The world's smartest university hospital</li><li>• The Growth of local companies, new investin companies</li></ul>
<b>Focus areas 2016 - 2017</b>	<ul style="list-style-type: none"><li>• Cognitive data processing in healthcare</li><li>• Cyber security</li><li>• Digitalization of social and welware services</li><li>• Nordic Collaboration</li></ul>

## Actions to Realise eHealth Strategy objectives

---

- 1** Ensure that eHealth is utilised to place the patient firmly at the centre of the new healthcare environment as outlined by the EU's eHealth Action Plan 2012-2020. This will include developing programmes to encourage and strengthen engagement, facilitate informed participation in the care process and increase health literacy.

---

- 2** Establish over time a dedicated, focused and strongly branded entity '*eHealth Ireland*' to oversee Ireland's eHealth journey and ensure maximum return for Ireland's population wellbeing and economy as a whole.

---

- 3** Potential priority projects:
  - » National Health Identifier Infrastructure.
  - » ePrescribing Systems.
  - » Online Referrals and Scheduling.
  - » Telehealthcare - particularly relating to the management of chronic diseases.
  - » Development of Patient Summary Records.
  - » Online Access to Health Information.
  - » National Patient Portal.

---

- 4** Establish specific functional workstreams involving all appropriate stakeholders to address the major deployment enablers including;
  - » Appropriate funding models for programs.
  - » Change management and adoption processes
  - » Healthcare informatics resources and the development of appropriate health informatics skills.
  - » A standards-based, multi-layered information and technical infrastructure to provide a common platform for eHealth deployments.
  - » Appropriate legislation around trust, privacy, security and data protection
  - » Public engagement, awareness and uptake.

---

- 5** Establish an eHealth Ecosystem involving the Departments of Health, Jobs Enterprise and Innovation, Education and Skills, Environment, the Healthcare Delivery system, Industry, Academia, the Research and Development communities and the voluntary sector.

---

- 6** Each government department and agency with a role in exploiting the potentiality of eHealth must develop strategies for actions to realise the economic benefits of eHealth.

---

- 7** A new IT strategy for the health system as a whole will be published in early 2014 by *eHealth Ireland* working closely with the SRG, the Department of Health and other relevant Departments and organisations.
